Qeerroo Bilisummaa Calls for Revolt In Response to Abay Tsehaye's Insult of the Oromo People

One of the leaders of the TPLF/EPRDF regime and an architect of the so called "Addis Ababa Master Plan", Abay Tsehaye, has openly insulted the Oromo people and particularly the OPDO by saying that the "Master Plan" will be put into practice by all means. Filled with contempt and arrogance, Abay Tsehaye said those who oppose the Master Plan "will be put down" or "face the consequences". He proved the long time belief that the so called OPDO is nothing but a puppet of the TPLF which can be intimidated by a single TPLF individual. The dictatorial Woyane Ethiopian regime's leader Abay Tsehaye, who is working as an "advisor" of the Prime Minister Hailemariam Dessalegn, is one of the TPLF heavy-handed personnel who interfere in all internal affairs of the nominal so called "Oromia regional government". He is said to be constantly harassing and intimidating high ranking OPDO officials and the leaders of the so called Oromia Regional Administration by calling them into his office. It should be clear that his current insult of Oromo nationalists and members of the Oromia regional administration is an insult to the entire Oromo nation. The so called "Master Plan", which Abay Tsehaye and his TPLF hooligans are trying to shove down into the Oromo people's throat, is a plan intended to evict Oromo farmers from their ancestral land and destroy the Oromo identity. It intended to take away Oromo land without the will of the owners of the land and destroy Oromo language by incorporating Oromian towns and villages into one big Addis Ababa, the capital city which should belong to Oromo in the first place. In doing so, Abay Tsehaye and the Tigrayan elites have a plan to divide Oromia into two: East and West.

In April and May, 2014, Qeerroo Bilisummaa has organized Oromian youth for nationwide protest against this so called "Master Plan", in which the regime brutally killed hundreds of school children and arrested and ruthlessly tortured tens of thousands others. Our people have already paid the ultimate sacrifice with their blood and the lives of their children. The current chauvinistic outburst of Abay Tsehaye only reaffirms to us that our struggle should continue

and that we should pay all necessary sacrifice. We will NEVER let this minority regime dictate its will upon us. We shall ignite the torch of Revolt Against Subjugation (*Fincila Diddaa Gabrummaa*) again and defend our father's land and dignity. A minority regime will not "put us down".

We call upon all Oromo organizations who struggle for freedom of their people to join us in intensifying the Revolt Against Subjugation. The series of arrogant behaviors demonstrated by the leaders of the TPLF/EPRDF regime, and the current inflammatory speech and insult by Mr. Abay Tsehaye, proves time and again that it is impossible to negotiate and work with this dictatorial and arrogant regime. The Only way forward is to remove this regime through popular revolt. Stand up for your right! Let's unite! We call upon all Oromos and other peoples oppressed the TPLF junta, to get together and fight shoulder to shoulder and remove our common enemy, get our country back and live in peace and harmony. It is our God given right.

Victory to the Oromo people!
